Worcester Polytechnic Institute

Bachelor of Science, Computer Science

Worcester, MA

2019 — Mar 2023

- Cumulative GPA: 3.82/4.0
- Executive member of WPI's chapter of Upsilon Pi Epsilon (International CS Honors Society)

WORK EXPERIENCE

Infrastructure Engineer

Lumafield

Jun 2025 — Present

Cambridge, MA

- Design, build, and maintain on-premise compute infrastructure from configuration through production deployment
- Support customer operations as technical point of contact for infrastructure deployed at customer sites

IT Specialist

Lumafield

Feb 2024 — Jun 2025

Cambridge, MA

- Established the IT department as the first dedicated IT hire, defining processes and SOPs from the ground up
- Scoped and managed new SF office buildout across networking, conference AV, and physical security systems
- Led SOC 2 and ISO 27001 compliance efforts across internal security and SaaS platforms

End User Computing Analyst

UMass Memorial Health

Jul 2023 — Feb 2024

Worcester, MA

- Contributed to multiple IT projects with a focus on identifying, locating, and phasing out outdated equipment
- Leveraged skills in Windows and Linux network utilities, Active Directory, Imprivata, and ServiceNow

Software Engineer Intern

MojoTech

May 2022 — Aug 2022

Providence, RI

- Built features for open-source web applications in a professional Agile environment
- Actively contributed to cross-team code reviews, both as author and reviewer

Computer Lab Assistant

Worcester Polytechnic Institute

Oct 2019 — Jun 2023

Worcester, MA

- Worked on time sensitive and high priority technical projects for faculty, staff, and graduate students
- Researched and implemented improvements to group policy on remote desktop servers
- Imaged, installed drivers on, and assembled new Windows and Linux machines

Digitization Consultant, Digitization Program Volunteer

Clark University, WPI

Jun 2020 — May 2022

Remote

- Consulted with small business clients to assess needs, scope projects, and deliver digital solutions

PROJECTS

Blog (blog.rvrx.dev)

- Technical posts covering homelab hardware, networking, and hobby projects
- Blog compiled from Markdown with custom MD to HTML pipeline (using NodeJS, markdown-it, and Nunjucks)

Homelab

2022 - Present

- Maintain multiple servers and hypervisors providing services for friends and small communities
- Setup switching gear to operate 10G SFP+ network on LAN (UniFi + Mikrotik)

Guns of Icarus Caster Companion (goicc.skyborne.net)

Jul 2021 — Sep 2021

- Built and shipped a cross-platform desktop companion app for the Guns of Icarus Online streaming community
